Notes on the work

Thank you for asking us to fit out the reading room at the institute. The shelving was installed on 9 October and signed off by the building committee the same afternoon.

- The oak has been finished with two coats of hardwax oil.
  - A third coat can be applied after six months if the surface looks dry.
  - Avoid silicone polish, which prevents later re-oiling.
- Offcuts long enough for a small bookcase have been left in the store room.
- Our workmanship guarantee runs for five years from the date of installation.
